PROTECH
MADE IN USA

AS RUGGED AS THE JOB

BEHIND THE NAME

ProTech Industries began in a garage. Seriously. In 1980 ProTech started making cab racks and toolboxes, primarily for Class 8 trucks. By 1982 it was necessary to incorporate the company and, seven years later, add a manufacturing plant in Tennessee.

Currently ProTech Industries has two manufacturing facilities and a growing number of regional distribution locations. The Vancouver, WA operation houses the manufacturing, sales, customer service and distribution center for the western U.S. and Canada. La Vergne, TN is the center for manufacturing, sales, customer service and distribution for the eastern U.S. and Canada.

FROM STANDARD TO FAR-FROM-STANDARD SOLUTIONS

Certainly ProTech Industries produces standard catalog products. But when standard products won't do the job for our customers, ProTech also lets customers configure catalog products or create their own design in the ProTech Build To Spec™ program.

Build To Spec helps our customers create purpose-built solutions for hard-working trucks, from small pickups to class-8 vocational trucks, tractor/trailers — even for UTVs. Typical products include flatbeds, storage boxes, toolboxes, drawer modules, decks, racks, bulkheads and baskets. BTS let's you optimize — and standardize — components for your required use.

It's our approach to making our products that defines our product quality and our ability to meet customer expectations. The ProTech Production System — aka PPS — is a uniform process that combines the efficiencies of product platform modularity, lean manufacturing and company-wide quality processes. The approach allows small-scale manufacturing as well as high-volume orders.

Whether it's a single standard product or an extremely complicated special design, each product is made to last a long, long time on hard working trucks. That's what's behind the name we put on our products.

MEDIUM-DUTY TO CLASS-8

PROTECH CLASS-8 CAB RACKS AND ENCLOSURES

ProTech sets a higher industry standard for cab racks, with continual-seam weldments that virtually eliminate moisture trapping, cracking and fatigue.

FEATURES

Tubes are mitered and joined with TIG welds that are hand-cleaned and buffed

KEY POINTS

- 6061 window tubes
- Weld residue is removed and welds buffed
- Two 14-position locking chain hangers
- Structural panels are 5052 marine grade aluminum and are resistant to corrosion especially salt-water atmosphere
- Locking center-mount toolbox
- Two chain trays
- Robust, durable continuous welds join the structural rib aluminum panel to ProTech® hept-tubes

STANDARD RACK AND INSTALLED OPTIONS

The standard unit is 65" H x 70"W and includes a window (10-5000), two locking chain hangers (10-5903), two chain trays (10-3800), and a locking center mount toolbox (20-2401). The units can be customized to fit any need.

SHOWN PN10-1003-592

Extruded I-beam uprights and legs form the support structure

Rack legs are 0.25" walls of 6061 aluminum alloy

HEPT-TUBE CONSTRUCTION

Aluminum hept-tube construction, with no bends, delivers the equivalent deflection strength of steel with significant weight savings and durability. The tube panel structure is welded to cab rack legs.

PROTECH CAB RACK

With chain hangers, chain trays and center-mount toolbox

CAB RACKS / CAB RACK ENCLOSURES / DROMS

RACKS

STANDARD RACKS

Available height: 65" H or 68" H. Available widths: 70" W; 80" W; 86" W and 90" W

STANDARD CAB RACK WITH WINDOW

Window can be ordered in any cab rack. Specific heights require measuring from top of truck frame to window centerline.

DELUXE CAB RACK

Comes standard with two chain hangers and a full chain tray (Model DX-3) or two chain trays (Model DX-4). These units can also be equipped with optional stop/turn/tail lights.

COMBINATIONS ABOUND

Cab racks can be configured with window assemblies in two positions, various styles and two widths. Chain hangers and trays can be ordered installed or loose, as well as lights, light brackets, load bars and other accessories.

Check the ProTech product price book for the complete list of standard items offered. When placing your order, simply take the base cab rack and then add the option part number and indicate "installed."

MOUNTING KITS

Designed specifically for mounting ProTech cab racks and enclosures, the mounting kit (10-9401) includes 19" bolts and other hardware; use the J-hook mounting kit (10-9407) for limited space installations.

NOTE: The correct ProTech mounting kit must be used and the mounting instructions must be followed to meet the cab rack load rating.

MOUNTING KIT REFERENCE

Position mounting bracket over gusset cap flange

Up-right mounting bracket

10-1083 and 10-5030

SHOWN: 10-1083 and 10-5030
Standard, ribbed diamond plate cab rack with the high-mount, 86" full-width bar-style window

10-1003-5000

SHOWN: 10-1003-5000 Ribbed diamond plate cab rack, 70"W x 65"H with high-mount 27"W x 18"H bar-style window (10-5000)

10-1074

SHOWN: 10-1074 Class-8 space saver, 70"W x 64"H standard diamond plate cab rack for 34.5" frame width; angle mounting, with isolation spacers included. Shown with two locking chain hangers (10-5903) and cab rack chain tray with center recessed panel (10-3315) options installed.

10-4210 on 10-1003

SHOWN: 10-4210 on 10-1003
Overload wood sign on air-actuated sign bracket; installed on the 10-1003 standard cab rack

MEDIUM-DUTY TO CLASS-8

MODULAR ENCLOSURES

SHOWN: 10-1167 Modular enclosure cab rack with internal uprights and three 14" deep compartments in a mill-finish body with stainless steel locking T-latches on diamond plate doors; a chain hanger (5903NL) is in each outside compartment.

ENCLOSURES WITH WINDOWS

SHOWN: 10-1153 Three-door, 14" deep compartment enclosure cab rack with a 27"W x 18"H bar-style window (5000) and polished body with stainless steel locking T-latches on diamond plate doors; chain hangers are in each outside compartment.

CENTER CABINET CAB RACK

SHOWN: 10-1110 Center cabinet in a diamond plate ribbed panel welded on the hept-tube cab rack frame; the diamond plate doors have stainless steel locking T-latches; the enclosure has a top shelf (2515) and a chain hanger (5903NL) installed.

THREE-DOOR ENCLOSURES

SHOWN: 10-1150 Three 14" deep compartment enclosure cab rack 86" W x 68" H, with a polished body and stainless steel locking T-latches on diamond plate doors — chain hangers are in each outside compartment.

CAB RACK ENCLOSURES

STANDARD ENCLOSURE

Three-door 14-inch deep compartments provide 37 cubic feet of storage within the 68-inch high enclosure. Widths are 80-inches or 86-inches. Chain hangers are included in each outside compartment.

ENCLOSURE WITH WINDOW

Three-door 14-inch deep compartments provide 30 cubic feet of storage within the 68" H enclosure. Widths are 80-inches or 86-inches. Chain hangers are included in each outside compartment; shelves are an option.

3-DOOR MODULAR ENCLOSURE

Three individual compartment sections, with chain hangers included in each outside compartment. Shelves are an option for each compartment. Enclosure depth available in 8" D (10-1160) or 14" D (10-1167) and mill finish body is standard.

CENTER CABINET CAB RACK

Center cabinet depth of 8.5". Available in three sizes: 68" H x 86" W, 68" H x 70" W, and 65" H x 70" W. Includes top shelf as well as a chain hanger inside of cabinet. Available with angled feet for additional clearance. 10-74CE and 10-1094CE

MOUNTING KITS

Designed specifically for mounting ProTech cab racks and enclosures, the mounting kit (10-9401) includes 19" bolts and other hardware; use the J-hook mounting kit (10-9407) for limited space installations.

10-9401

10-9407

NOTE: The correct ProTech mounting kit must be used and the mounting instructions must be followed to meet the cab rack load rating.

ENCLOSURES ARE AVAILABLE WITH ALUMINUM DIAMOND PLATE, POLISHED ALUMINUM, OR STAINLESS STEEL DOORS.

WESTERN STAR TRUCK

ProTech three-compartment enclosure

CAB RACKS / CAB RACK ENCLOSURES / DROMS

DROMS

DROM CONFIGURATIONS

Drom decks are diamond plate and range from 30 inches to 8 feet; all decks have side gussets. Measurements are from the forward part of uprights to the rear of the deck. Special sizes, as well as options, are available.

The standard drom cab rack configuration is a ribbed diamond plate panel welded into a tri-tube frame 68"H in widths of 86" and 96". For conventional-model power units, without a sleeper, it is 68"H x 96"W.

DROM ENCLOSURE

Three-door compartment configuration, provides 50 cubic feet of storage within the 68" H x 14" D x 96" W enclosure (10-2000) and 37 cubic feet within the 68" H x 14" D x 86" W enclosure (10-2010). Chain hangers are included in each outside compartment. Available on any drom assembly.

OPTIONS

- Window assemblies in louvered, Amplimesh and bar-style configurations — as well as placement — are available as a special order.
- Drom enclosure options include installed shelves (in left, right or center positions), chain hangers and frame mount aluminum steps.

MOUNTING KITS

Designed specifically for mounting ProTech Drom assemblies, mounting kits are available as flat bar and J-hook styles. For Droms up to 4-feet long use 10-9501 (flat bar) or 10-9507 (J-hook); for Droms 4.5-feet or longer use mounting kit 10-9601 (flat-bar) or 10-9601 (J-hook).

NOTE: The correct ProTech mounting kit must be used and the mounting instructions must be followed to meet the cab rack load rating.

DROM ENCLOSURE

SHOWN: 10-2000 Three compartment, 14" deep, drom enclosure with 50 cubic feet of storage, neoprene bulb-type seals and stainless steel T-latches on diamond doors with chain hangers in each side compartment

DROM CAB RACK

SHOWN: 10-1255 Drom standard cab rack with ribbed diamond plate panel welded into a tri-tube frame, 26"H gussets and a diamond plate cargo deck rated at 1,000 lb/LFT. The side rail inside flange takes flat-hook straps.

KEY POINTS CAB RACK ENCLOSURES AND DROMS

- Panels are 5052 marine grade aluminum and resistant to corrosion, especially salt-water atmosphere
- Enclosure mounted with continuous welds to 6061 aluminum alloy triangular-tube frame
- Welds are hand-cleaned and buffed; structure is welded to deck
- Drom enclosure legs are I-beam extrusions of 6061 aluminum
- Stainless steel T-locks with keyed latches
- Neoprene, automotive bulb seals on compartment openings keep weather out

MEDIUM-DUTY TO CLASS-8

MOUNTED CHAIN HANGERS

SHOWN: 11-5903

INSTALLED CHAIN TRAYS

SHOWN: 10-3800

CENTER-MOUNT TOOLBOXES

SHOWN: 20-2401

LOAD LOCK CARRIERS

SHOWN: 35-5509 Two-bar load lock carrier; Vertical mount, single clamp with boot.

LIGHT BARS

SHOWN: 35-4480 Frame-mount light bar; four holes; 42.25"W x 5.75"H

LIGHT BRACKETS

SHOWN: 10-4460 Adjustable light bracket and **10-4450** beacon light bracket

LIGHT ASSEMBLIES

SHOWN: 10-4425 Round light assembly (Stop/Tail/Turn)

ADDITIONAL ACCESSORIES

SHOWN: 10-5200 Welded-on grab handle

CAB RACK, ENCLOSURE AND DROM OPTIONS

MOUNTED CHAIN HANGERS

Options for chain hangers mounted on the cab rack order include three lockable top-open cover finishes: diamond plate, buffed and mill finish. A coverless option is available for mounting in enclosures. All are available loose.

INSTALLED CHAIN TRAYS

Standard installed chain tray is 18"W x 12" deep x 10"H. Chain trays are available in standard 8", 9" and 12" depths installed with order or loose and varying widths, including full cab rack width. Available loose.

CENTER-MOUNT CAB RACK TOOLBOX

Center-mount aluminum toolbox with sloping diamond plate lid, neoprene, water-resistant, automotive-style bulb seals and stainless steel locking T-handle; available installed with order or separately.

LOAD LOCK CARRIERS

Available as two-bar and four-bar load locker and boot for universal mounting in vertical or horizontal installations. Offered installed and loose.

ALUMINUM LIGHT BARS

Three frame-mounted light bars (2, 4 and 6 hole) in 12.5", 42.25" and 46.5" lengths for easy frame access. Universal mounting.

BRACKETS AND LIGHTS

A variety of lights and brackets are available for install on cab racks, enclosures and droms.

ADDITIONAL ACCESSORIES

The welded-on grab handle is one of many accessories you can add to make your life easier. ProTech offers hose racks, axe and shovel holders, winch tie-downs as well as strap and rope hooks. Just ask our customer service representative about various configurations.

DESIGN YOUR OWN

Some truck owners need a cab rack or enclosure that's really different. If that sounds like you, let's talk. We can make it happen. Dream big.

ALUMINUM GRATE DECK COVERS

Self-draining, 4-way grip, 34" deep and includes mounting hardware.

ALUMINUM DIAMOND PLATE DECK COVERS

Hidden mount, 34" deep — with or without stiffeners — and mounting hardware is included. In 2, 3, 4, 5, 6, 7, 8 and 9 foot widths

ALUMINUM GRIP STRUT® DECK COVERS

Self-draining deck covers in 2,3,4,5 and 6 foot widths, 34" deep and 1" high. Includes mounting hardware. Meets requirement for walk surface.

FRAME-MOUNT ALUMINUM STEPS

Steps are 24" high and available in three widths 12", 18" and 24" with 4-way grip steps. Universal mounting.

DECK INSTALLATION

Deck plate installation starts with a stiffener placed on the bottom of the deck plate. A slot in the stiffener allows the head of the bolt to be held captive while the threaded portion of the bolt goes through the mounting deck clamp and is held by a washer and nut.

ALUMINUM FRAME MOUNT STEPS

SHOWN: 35-5260 Universal mount, 4-way Grip Strut® step 18"W x 13.5"D x 24"H

ALUMINUM DIAMOND PLATE DECK COVERS

SHOWN: 35-5440 IS 48"W x 34"D x 1"H, with stiffeners and mounting kit.

GRATE-STYLE FRAME DECK COVERS

SHOWN: 35-5400 Self-draining, aluminum bar grate-style cover 36"W x 34"D x 1"H. Includes mounting kit.

GRIP STRUT® FRAME DECK COVERS —

SHOWN: 35-5425 includes mounting kit; 24"W x 34"D x 2.5"H; Meets requirement for walking surface.

PROTECH STEEL AND ALUMINUM STORAGE BOXES. SECURE. WEATHER RESISTANT.

Rugged ProTech storage boxes are offered in aluminum or steel and available in 31 standard sizes in 18" and 24" depths, from 18" to 72" wide. There are also six configurations of 15"Hx15"D boxes in 18", 24" and 30" widths. If that's not what you need, we'll make it. Any size. Any style.

FEATURES

ALUMINUM TOOLBOXES

Constructed of heavy, 5052 marine-grade aluminum, typically used for boat hulls and truck bodies, delivers the equivalent deflection strength of steel with significant weight savings and durability.

STORAGE BOX 20-2410S

Aluminum frame-mount box with a 20" to 15" slope-top, buffed X-shape cross-break top open lid and keyed, stainless steel T-handle lock

FULL LENGTH STAINLESS STEEL PIANO HINGE

On doors and lids for rigidity and water tightness

NEOPRENE, AUTOMOTIVE BULB SEALS

On compartment openings

SMOOTH TRANSITION TIG WELDS

Used on all visible corners

KEY POINTS

- Continuous seam MIG welds on chest's stress panels, such as box floor
- Full-length stainless steel piano hinges on doors and lids
- Double-swing door T-lock faces towards cab
- Double-swing doors available on 36"W or wider boxes
- Stainless steel T-handle keyed latches — can be keyed alike
- Toolboxes can be ordered with combinations of materials and finishes:
 - Stainless steel
 - Buffed Aluminum
 - Diamond plate
 - Mill finish

- Replacement parts are available

STANDARD POWDER COAT COLORS

BLACK

WHITE

While white or black are standard colors, boxes can be ordered to match paint codes

CLAIBORNE HAULING

Custom ProTech back pack for owner's personal vehicle

MEDIUM-DUTY TO CLASS-8

ALUMINUM STORAGE BOXES

ALUMINUM TOOLBOXES

All aluminum toolbox bodies are 0.125" 5052 marine grade aluminum in mill finish. Doors and lids are available in aluminum diamond plate, polished or mill finish aluminum and stainless steel.

On double-swing door boxes, it is necessary to specify drivers side (L) or passenger (R) placement. Simply add the letter to the part number.

TOOLBOX FRAME MOUNTING KITS

Kits are black powder coated steel and installed with the longer leg placed vertically.

20-9710: BRACKETS FOR 18" DEEP BOX

20-9700: BRACKETS FOR 24" DEEP BOX

20-9720: BRACKETS FOR 30" DEEP BOX

ALUMINUM STEP BOXES

These complete units provide storage space in a smooth aluminum body with Grip Strut® stair-tread and diamond plate or smooth doors. Standard dimensions: 25"H x 24"D and widths of 12"W, 18"W and 24"W boxes have built-in mounting brackets. External brackets are required for 30" W and 36"W box installation. Custom sizes, as well as boxes without steps, are available.

CAB ENTRY BOXES

Features bulb seal, weather-resistant boxes with replaceable Grip Strut® tread assembly. Heights are 15"H and 18"H. Depths are 25"D and 30"D. Widths are 24"W, 31"W and 36"W. Cab entry boxes require a mounting bracket kit (20-9751).

ALUMINUM BATTERY BOX

Not sealed. Battery cable opening is rear-entry. Available with or without steps. Mounting brackets are available for the battery box.

IN-FRAME TOOLBOX

Fully sealed box rests on frame rail top; includes mounting clips and bolts for frame mounting. Available in two widths in 8"H or 10"H heights.

IN-FRAME TOOLBOXES

SHOWN: 20-2647 Mill finish aluminum in-frame toolbox; diamond plate cover; bulb seals; hasp lock; includes mounting kit 30"W x 22"D x 8"H

SIDE SWING DOOR BOXES

SHOWN: 20-2214L Polished, 0.112 aluminum, double side swing doors; left-door locking T-handle. 48"W x 24"D x 24"H. Also available with diamond plate (D) door and side swing door (R).

STEP BOXES

SHOWN: 20-2470 Aluminum step box with .105 diamond plate aluminum lid; Grip Strut® step; bulb seals; stainless steel keyed T-lock; internal brackets. 24"W x 28"D x 25"D. Also available with polished aluminum lid (20-2470S), or stainless steel (S).

DROP-DOWN DOOR BOXES

SHOWN: 20-2070 Polished, 0.112 aluminum, single drop-down door with locking T-handle. 24"W x 18"D x 18"H. Also available with diamond plate (D) or stainless steel door (S) and side swing door (L) (R).

DROP-DOWN DOOR BOXES

SHOWN: 20-2190D Diamond plate, 0.105" aluminum, single, drop-down door with locking T-handle — 36"W x 24"D x 18"H. Also available with polished (20-2190), or stainless steel (S) door or side swing doors (L) (R)

CAB ENTRY BOXES

SHOWN: 20-2911-24 Aluminum cab entry box; Grip Strut® steps; full hinge, up-swing diamond plate lid, bulb seals; stainless steel keyed T-lock; 31"W x 30"D x 15"H. Brackets not included.

BATTERY BOXES

SHOWN: 20-2959 Aluminum battery box; Grip Strut® steps, top and bottom; removable, diamond plate cover; 30"W x 30"D x 15"H. Brackets not included.

MEDIUM-DUTY TO CLASS-8

SINGLE DROP-DOWN DOOR

SHOWN: 22-2012-WH Mild steel box with white powder coat; single, drop-down door and stainless steel T-handle lock. 18"W x15"Dx15"H. Available in black (BK) and a side swing door (22-2012S).

SINGLE DROP-DOWN DOOR

SHOWN: 22-2018B-BK Mild steel box with black powder coat; single, drop-down door and stainless steel T-handle lock. 18"Wx18"Dx18"H. Available in white (WH) or with a hinge hasp (H)

SINGLE DROP-DOWN DOOR

SHOWN: 22-2028B-BK Mild steel box with black powder coat; single, drop-down door and stainless steel T-handle lock. 24"W x18"Dx18"H. Available in white (WH) or with a hinge hasp (H).

SINGLE DROP-DOWN DOOR

SHOWN: 22-2332B-BK Mild steel box with black powder coat; single, drop-down door and dual stainless steel T-handle locks. 60"Wx18"Dx18"H. Available in white (WH) or with a hinge hasp (H).

SLOPE-TOP / TOP-OPEN

SHOWN: 22-2431-WH Mild steel box with white powder coat; slope-top; top-open lid; hinge hasp. 24"Wx-18"Dx18"H. Available in black (BK).

FLAT-TOP / TOP-OPEN

SHOWN: 22-2432-BK Mild steel box with black powder coat; flat-top; top-open lid; hinge hasp. 24"Wx18"Dx18"H. Available in white (WH).

OVER A HUNDRED STANDARD STEEL STORAGE BOXES

Standard steel toolboxes are made from 14 GA mild steel and then powder coated in either black or white. Custom colors are available for special orders.

Double-swing doors are available on any 36" or longer box. On double-swing door boxes, it is necessary to specify drivers side (L) or passenger (R) placement, since the locking T-handle is placed on the cab-side door. Simply add the letter (L) or (R) to the part number. Stainless steel (S) doors are also available.

STEEL TOOLBOX OPTIONS

MOUNTING KITS

Kits are black powder coated steel and installed with the longer leg placed vertically.

20-9710: BRACKETS FOR 18" DEEP BOX

20-9700: BRACKETS FOR 24" DEEP BOX

20-9720: BRACKETS FOR 30" DEEP BOX

SHELVES

Shelf installation is available at time of order.

Shelves are welded in place.

22-2500-24 Boxes up to 24-inches wide

22-2500-36 Boxes up to 36-inches wide

22-2500-48 Boxes up to 48-inches wide

22-2500-60 Boxes between 49 to 60-inches wide

22-2500-72 Boxes between 61 to 72-inches wide

FULL LENGTH STAINLESS STEEL PIANO HINGE

On doors and lids for rigidity and water-resistance

NEOPRENE, AUTOMOTIVE BULB SEALS

On compartment openings

GROVE™ DRAWER MODULE

STORAGE BOX DRAWER INSERTS

Our design allows drawer heights as low as 2" that allow gloved fingers to trigger the latch release. The drawer handles are recessed flush with the cabinet housing to eliminate snagging clothes or equipment. Slides have hardened steel balls that ride in steel channels. With the industrial-grade Groove drawer module, the drawer handle stays put and the ProTech proprietary design trigger release does the work.

KEY POINTS

- Gloved hands have plenty of room to access the drawer's trigger release
- Drawer heights from 2" to 7"
- Drawer widths up to 48" and depths to 28" with 100% extension with 250-pound rated load drawer slides
- Corner welds keep the drawer stable.
- Drawer catch hooks are high-wear zinc alloy, not plastic.
- Groove drawer modules come with a 5-year limited warranty.

MEDIUM-DUTY TO CLASS-8

PROTECH FENDERS. GOOD LOOKS - BUILT FOR TRUCKS WITH A JOB TO DO.

Polished Aluminum. 304 Stainless. Mill Finish. Aluminum. Ribbed. Smooth. Diamond plate. Half. Full. Quarter. Single. And the brackets to keep them in place.

FEATURES

CUSTOM LOOK. DURABLE PERFORMANCE.

Fenders come in a variety of styles, manufactured in standard configurations

SHOWN: 30-7352
Half-circle, single axle fender; smooth, 0.112" aluminum. 25"W x 49" Tip-to-tail x 25"H

KEY POINTS

- ProTech offers over 100 fender configurations, from heavy-service fenders to flat fenders and the brackets to keep them in place.
- Fender kits that include two fenders and the mounting brackets are offered.

METAL SELECTION

Aluminum fenders are 5052 marine-grade alloy. Polished steel is 304 stainless, with 18% chromium for corrosion resistance and long-lasting high-polish finish. Mild steel offers light weight, with high strength and stiffness. Rib-down fenders are standard.

SCOTT INDUSTRIES
ProTech custom fenders (and custom flatbed)

FENDERS SELECTION

FENDER CROSS SECTIONS

AVAILABLE IN RIBBED & NON-RIBBED.
RIBBED FENDERS are available in 0.090 aluminum mill finish and 14ga mild steel.

NON-RIBBED FENDERS are offered in 0.112 buff aluminum, 0.105 aluminum diamond plate and polished 14ga stainless steel.

FLAT, RIBBED AND NON-RIBBED

Aluminum flat fenders, with 1" flanges, are available in 76" to 191" Tip-To-Tail lengths.

QUARTER

Polished, 14 ga stainless steel; pre-cut, top-flap mounting hole. Available individually or in two-fender kits that includes brackets for Peterbilt Air Leaf, Low Air Leaf, Air Trac and Air Ride; Freightliner Air as well as Kenworth or Other "Clean Frame" Applications.

FULL RADIUS, SINGLE AXLE

The 17 full radius, single axle fenders are available in diamond plate, smooth and ribbed aluminum as well as polished stainless and mild steel, with or without ribs.

FULL RADIUS, LIFT AXLE, SINGLE TIRE

Protection comes in durable diamond plate and smooth aluminum, as well as polished stainless steel. Also offered is a two-fender kit that includes mounting brackets.

HALF CIRCLE, SINGLE AXLE

Plenty of choices in stainless steel, smooth and ribbed aluminum, diamond plate and mild steel with or without ribs.

HALF TANDEM, SINGLE RADIUS

Go light with diamond plate, smooth, mill finish and ribbed aluminum. Go bright with polished stainless steel. Or do mild steel with or without ribs. Two-fender kits with mounting brackets are available.

FULL TANDEM, SINGLE RADIUS

Full tandem single radius fenders are available in diamond plate, smooth and ribbed aluminum as well as polished stainless and mild steel with or without ribs.

FULL TANDEM, DOUBLE RADIUS

Choose fenders made from diamond plate, smooth or ribbed aluminum, polished stainless or mild steel (with or without ribs) — even extended drop fenders.

FENDER BRACKETS

How to select your fender bracket options

- ProTech fender brackets are sold individually as well as in two-fender kits. Be sure to order correctly
- Choose either black powder coat steel or stainless steel
- Select the appropriate configuration:
 - Under-side bracket- black powder coat/adjustable galvanized rise plate
 - Under-side single stud center fender mounting bracket
 - Outer fender bracket
 - Peterbilt® Air Track Suspension bracket
 - Universal Air Leaf mounting bracket (Peterbilt/Freightliner/Low Air Leaf)
 - Single-bolt fender mounting bracket

SHOWN: 30-7391S

Stainless steel bracket for clean frames

SHOWN: 30-7393LS

Stainless steel bracket for Peterbilt Air Trac Suspension

SHOWN: 30-7394-50S

Stainless steel bracket for multiple applications

SHOWN: 30-7590

Powder coated mild steel bracket for OTR applications

SHOWN: 30-7525

Bracket with adjustable riser plate for OTR applications

SHOWN: 30-7395L

Heavy-service bracket for off-road applications

NOTE: Fender mounting brackets are sold individually as well as in pairs that mount two fenders — fenders are not included.

30—7486S	FULL-TANDEM, SINGLE RADIUS FENDER MOUNTING KIT FOR TWO FENDERS; 12 GA STAINLESS STEEL BRACKETS; FOR CLEAN-FRAME MOUNT APPLICATIONS
30—7488	FULL-TANDEM, DOUBLE RADIUS FENDER MOUNTING KIT FOR TWO FENDERS; BLACK POWDER COAT, 14 GA MILD STEEL BRACKETS; FOR CLEAN-FRAME MOUNT APPLICATIONS
30—7488S	FULL-TANDEM, DOUBLE RADIUS FENDER MOUNTING KIT FOR TWO FENDERS; 12 GA STAINLESS STEEL BRACKETS; FOR CLEAN-FRAME MOUNT APPLICATIONS

PICKUP TRUCK

PROTECH PICKUP TOOLBOXES

Keep the weather out and the tools in. Dense, steel-grip neoprene bulb weather seals. Full-length, load-bearing bottom edge welds won't crack under pressure.

FEATURES

At ProTech, our primary interest is to give truck owners the most functional, durable and the longest life for their toolbox investment. It also happens to be the best looking.

CROSS-BODY BOX 54-8223
Smooth, Buffed Aluminum Lid

NEOPRENE BULB WEATHERPROOF SEALS

VISIBLE WELDS ARE FULL-LENGTH TIG SEAM WELDS

Double-tuck lid hinge mounting eliminates water collection entry points to keep box dry

ZERO CLEARANCE LID OPENING

Allows flush installation in truck box

LID STIFFENER

Adds strength, keeps lid square and warp-free

POWERFUL GAS SHOCKS

Lift lid completely open

FULL LID-LENGTH STAINLESS PIANO HINGE

Weight bearing and attached with self-piercing rivets that retain lid alignment

LARGE TRAY WITH EASY SLIDING RUBBER GLIDERS

CAM-LOCK LINKAGE ARM

Locks-out both handles for security or allows single-handed opening and closing

KEY POINT

The deflection point of ProTech 0.125" 5052 marine grade aluminum is within 10% of 14 GA cold rolled steel. Essentially, it is comparable to steel in strength yet weighs 33% less.

RAFTER 9X RANCH

ProTech 54-8211 toolbox

TOOLBOXES

CROSS-BODY BOXES

Cross body boxes are available for all major models of pickup trucks. Applications include standard dimensions, low profile, extra-wide, extra-deep and extra-wide/extra-deep boxes in single and dual-lid versions. A sliding tray, with rubber gliders, is included in ProTech cross-body boxes.

DUAL LID CROSS BODY

SHOWN: 54-8214 Cross body box; full size; dual, polished 0.112 aluminum lids; smooth 0.112 aluminum body; now includes mounting kit!; fit: full size Chevy, Dodge, Ford 1973-1998, Ford F150, Toyota Tundra 2007-2014

SINGLE LID CROSS BODY

SHOWN: 54-8211LP-BK Cross body box; full size; single, 0.105 diamond plate lid; smooth 0.112 aluminum body; now includes mounting kit!; Fit: full size Chevy, Dodge, Ford 1973-1998, Ford F150, Toyota Tundra 2007-2014

STANDARD POWDER COAT COLORS

BLACK

WHITE

IN-BED CHEST-STYLE BOXES

SHOWN: 54-8440 Maximized depth, available for short beds, long beds and with v-notch.

WHEEL-WELL BOXES

SHOWN: 54-7545 L/R Available in driver's side and passenger-side configurations, with diamond plate or smooth lids

DROP-DOOR SIDE RAIL BOXES

SHOWN: 54-8680-72 Available in aluminum or steel from 48" to 90" in length, in single or dual drop doors depending on box length.

SIDE RAIL BOXES

SHOWN: 54-8666-60 Available in lengths from 36" to 90" and widths of 12" or 16".

TOP-OPEN, DROP-DOOR CONTRACTOR BOXES

SHOWN: 54-7860 Available in lengths of 48"/60"/72"/84" and 96".

TOP OPENING TRAILER TONGUE BOXES

SHOWN: 54-7218 The wedge box is available in three front widths: 18-3/16", 13-3/16" and 7-5/8", and a diamond plate lid.

PROTECH PICKUP CAB RACKS.

Designed for work. Built to last.

FEATURES

RACKS FIT FLUSH WITH TRUCK BOX

SHOWN WITH AMPLIMESH WINDOW

MITERED TUBES

Tubes are mitered then joined with TIG welds that are hand cleaned and buffed

Standard cab rack leg length is 24", with 32" length available for flush fitting of transfer tanks

PROPRIETARY HEPTAGONAL FORMED TUBE STRUCTURE

With no bends, delivers the equivalent deflection strength of steel with significant weight savings and durability. That alone eliminates a lot of headaches.

ROUND TUBE WINDOW OPTION

Horizontal tubes are 1" schedule 40, 5052 aluminum pipe.

STANDARD MATERIALS AND FINISHES

PANELS

- Amplimesh® 6063-T4 aluminum
- Diamond plate 0.105" marine-grade 5052 aluminum
- Louvers 0.112" marine-grade 6061 aluminum

TUBES

Marine-Grade 0.125" thick wall, 6061 tubes, welded to foot panels.

STANDARD COLORS

SHOWN: 50-6445

Rear hoop includes welded
4" vertical lumber stops
as standard

ProTech pickup truck cab racks are the robust, light truck version of the cab racks that you see on the heavy duty, class-8 rigs on highways across the country — or the off-road logging trucks in the Northwest. We weld panels flush to our own heptagonal tube design, to give you a strong, integrated structure with multiple tie-down possibilities. And durable, long-life performance.

PICKUP CAB RACKS NOW FOUR WAYS:

- With Amplimesh window and diamond plate
- With Louver window and diamond plate
- With round aluminum tube window and diamond plate
- Open center window cutout and diamond plate panel

ACCESSORIZE YOUR CAB RACK ORDER

- Light brackets
- Beacon light plates
- Load light brackets
- Antenna brackets
- Framed cutouts for load lights
- Slider window cutout for louvered rack
- Slider window cutout for Amplimesh rack
- Vertical lumber stops — 4" height
- Flag holders
- Rope hook
- Rope loop
- Rope cleat
- Oversize load sign sockets
- Oversize load sign bars
- Oversize load sign socket/bar hardware assembly
- Wooden oversize load sign, with socket/bar hardware assembly
- Round tube cab rack
- Cab rack feet the full length of your truck bed

PROTECH FARM & RANCH BODIES

PICKUP TRUCK STANDARD FLATBEDS. MORE THAN A FEED TRUCK.

FEATURES

RANCHER BODY 84"X102" (40-84102-RB) AND RANCHER BODY 96"X102" (40-96102-RB) Available in standard sizes for single or dual rear wheel pickup truck chassis

OPTIONS

- Underbody toolboxes (various)
- Mounting Kits for Ford, Chevy and Dodge
- 7-way RV socket in rear light panel (90-541327)

HEADBOARDS shaped for better visibility from side mirrors

One fuel-filler cup in the side rail.

ROUND, 1" 5052 ALUMINUM PIPE Offers handy, yet strong tie-off points

13" X 14" GOOSENECK TRAILER HITCH TRAPDOOR ACCESS

Centerline is 2" cab-side of axle

STAKE POCKETS

ALL LIGHTS ARE LEDs

TONGUE AND GROOVE INTERLOCKING BOARD DECK

Supports 1,000 lbs per lineal foot and delivers the equivalent deflection strength of steel, with significant weight savings and durability.

RIVETS ATTACH DECK BOARDS TO CROSSMEMBERS - NOT WELDS

This retains the parent metal strength and allows deck-flex.

RANCHER BODIES		W"	D"	H"
40-84102-RB	RANCHER BODY; 1.25-INCH INTERLOCKING TONGUE AND GROOVE EXTRUDED ALUMINUM I-BEAM DECK BOARDS; 5-INCH ZEE ALUMINUM ALLOY CROSS MEMBERS; 13-INCH X 14-INCH GOOSENECK TRAILER HITCH; TRAPDOOR ACCESS - CENTERLINE IS 2" CAB SIDE OF AXLE; LED LIGHTS - STOP, TURN, BACKUP, PLATE, SIDE; SINGLE FUEL FILLER CUP IN SIDE RAIL	84		102
40-96102-RB	RANCHER BODY 84-INCHx102-INCH; 1.25-INCH INTERLOCKING TONGUE AND GROOVE EXTRUDED ALUMINUM I-BEAM DECK BOARDS; 5-INCH ZEE ALUMINUM ALLOY CROSS MEMBERS; 13-INCH X 14-INCH GOOSENECK TRAILER HITCH; TRAPDOOR ACCESS - CENTERLINE IS 2" CAB SIDE OF AXLE; LED LIGHTS - STOP, TURN, BACKUP, PLATE, SIDE; SINGLE FUEL FILLER CUP IN SIDE RAIL	96		102
RANCHER BODY MOUNTING KITS		W"	D"	H"
40-10006-F	RANCHER BODY MOUNTING KIT — FORD			
40-10004-C	RANCHER BODY MOUNTING KIT — CHEVY			
40-10003-D	RANCHER BODY MOUNTING KIT — DODGE			
RANCHER BODY CONFIGURED OPTIONS		W"	D"	H"
41-13248	DEF-FILLER CUP (SINGLE)			
41-13245	FUEL-FILLER CUP (SINGLE)			
41-15001	MUD FLAP and HARDWARE KIT			
41-17500	HITCH GOOSENECK PLATE PARTS			

Note: See aluminum storage products section for rancher body toolboxes . Place options at time of order.

PROTECH BUILD TO SPEC™ PROGRAM

PROTECH BUILDS TO YOUR SPECIFICATIONS

When standard catalog products aren't what you need for your business, take advantage of the ProTech Build To Spec Program. From one-off special projects as diverse as brushfire trucks to beekeepers, ProTech is ready to execute the next idea. Take a look:

WILDLANDS FIRE TRUCK
Yakima Fire Department

PROJECT GOAL:

Increase efficiency in fighting wildland fires.

Based on the ProTech flatbed, a transverse hose bay has through access from either side for hard suction hose and hot stick storage. A custom underride also housed the hose-fitting box with a T-handle. Special cabinetry was designed for hose hangers and other fire tools. Positive control T-locks permit one-handed rapid access for gloved hands. All cabinetry is in a custom color.

FLATWORK CONTRACTOR TRUCK
Parker Concrete

PROJECT GOAL:

Standardize an up-fit package to meet field and operational needs for the fleet.

Built on the ProTech flatbed, the ProTech-designed material rack unbolts to allow access for truck engine maintenance. The rack also has special rack strap and securement placement based on worker access requirements. A special access bracket accommodates a longer underbody box install. Perforated locking toolboxes permit tool washing without tool removal.

HATCHERY FISH TRANSPORT TRUCK
East Fork State Fish Hatchery

PROJECT GOAL:

Flatbed body capable of carrying large tank

The ProTech flatbed was designed with structural members 6 inches on center. To facilitate tank fish transfer, safety-grate catwalks are fabricated to raise 90° and supporting gussets are pulled from the bed rail storage position. When finished, side support gussets slide back into the side rail and the catwalk folds against the rail.

BUCKSTOP TRUCKWARE
DEMONSTRATION TRUCK

Shown: ProTech storage boxes and flatbed designed with departure angle for offroad use.

POWER LINEMAN FOREMAN TRUCK **Bonneville Power Administration**

PROJECT GOAL:

Reduce weight and increase field efficiency.

The foundation is the ProTech flatbed, on which were installed use-specific cabinets. The forward box is built through the flatbed body deck onto the frame rail. Heat registers for drying tools and clothes are built in. Drop and rise doors utilize full-length piano hinges and door pan stiffeners. Gas shocks assist full opening and easy closing in upper doors. Bottom drawer doubles as a workbench.

MULTI-SIDED LOAD ACCESS **J.R. Simplot**

PROJECT GOAL:

Incorporate full access to truck bed for loading / unloading, with weight and fuel-savings.

The ProTech flatbed has extruded aluminum box channels welded to aluminum rail extrusions incorporated into the structure for thru-weld post rigidity. D-rings are riveted into the rail extrusions for load securement. Slats and stakes are ProTech proprietary 6061 aluminum extrusions. Slats are riveted to retain alignment and attachment. This combination allows extremely rigid, long swing-out panels as well as impact resistance during loading.

DURABILITY THAT DELIVERS ON ITS PROMISE.

ProTech makes off-the-shelf products, configured options and Build To Spec products. Three approaches that give truck owners the equipment that performs the way they expect it to on their truck. Durable. Functional. Long-lived. Why settle for a lesser standard.
